

NFL CANADA PILOTS TEACHER TOUR WITH NBTA

(New Brunswick Teachers Association)

Tamara Sealy

On November 25th, 16 teachers from Southern New Brunswick boarded a bus for a day to learn more about New Brunswick Agriculture. The tour included stops at a potato farm, agro-tourism farm, dairy farm, and berry processing facility. The teachers gained a lot of information and learned how farmers are great stewards of their land and use great technologies and innovations to be more efficient. There are plans to host a couple more tours in partnership with the NBTA in 2022.

“Everything was well organized, and overall it was a GREAT day.”

“Best PD event ever.”
